

Virtual Physical Therapy Financial Agreement by

Cardin & Miller Physical Therapy

Telemedicine is the remote delivery of health care services and clinical information using audio and video on your computer or cell phone. This includes a wide array of clinical services using internet, wireless, satellite and telephone media. Cardin & Miller Physical Therapy uses HIPPA compliant programs to deliver all physical therapy services through a telehealth program. In the event that your insurance does not cover services provided by a physical therapist via telehealth, the self pay rate/charge will be \$95/visit. All self-pay virtual physical therapy services rendered will be subject to an automatic withdrawal through your credit card within 24 hours of the services being rendered. We do require a credit card to be on file before any service is rendered.
